

**THE MOST COMPREHENSIVE SOLUTIONS
IN VACUUM AND LEAK TESTING TECHNOLOGIES.**

VACUUM TECHNOLOGY

Founded more than 30 years ago, LACO is one of the leading manufacturers and suppliers of vacuum technology solutions. Our team is dedicated to providing innovative vacuum solutions that help you achieve your goals. LACO's unmatched range of vacuum chambers and systems – from medium to high vacuum – can perform in the most unique and challenging applications. Whether you need a standard vacuum chamber or a custom turn-key system our expertise means you get a solution that works for you.

VACUUM CHAMBERS & SYSTEMS

LACO engineers and manufactures vacuum chambers to meet a broad range of requirements for every application.

VACUUM APPLICATIONS

ALTITUDE & SPACE SIMULATION

VACUUM DRYING

THERMAL VACUUM PROCESSING

PRODUCT & PACKAGE TESTING

VACUUM DEGASSING & POTTING

VACUUM THIN FILMS & COATING

RESIDUAL GAS

Our chambers are available in materials such as:

- ALUMINUM
- STAINLESS STEEL
- CARBON STEEL
- ACRYLIC

Vacuum chamber designs are available in vertical and horizontal cylindrical, cube, rectangular and bell jar configurations or our team will customize any design to meet your needs.

LEAK TESTING TECHNOLOGY

At LACO you will find the most comprehensive selection of leak detection equipment and solutions. LACO is uniquely qualified to provide you with the right leak testing solutions to reach your production requirements. Whether you need to find leaks in a process system or leak test parts on a high speed production line, LACO has the equipment and the expertise to ensure the success of your application.

PRODUCTION LEAK TESTING APPLICATIONS

AUTOMOTIVE & TRANSPORTATION

MEDICAL DEVICES

APPLIANCES

REFRIGERATION & A/C

AEROSPACE

PACKAGING

PRODUCTION LEAK TESTING

Let LACO evaluate your application and provide you with the most innovative, reliable, and trouble-free leak testing equipment on the market.

LACO engineers and manufactures leak testing systems utilizing:

- all helium tracer gas methods
- air leak testing methods
- non-helium tracer gas technology
- innovative patented processes

ABOUT LACO TECHNOLOGIES

Established in 1975, LACO Technologies is located in Salt Lake City, Utah, and serves customers across the United States and internationally.

OUR MANUFACTURING FACILITY

- welding, machining and fabrication
- system assembly, integration and testing
- accredited calibration laboratory
- repair and service department

ENGINEERING

- mechanical, electrical and controls engineering
- 3D CAD mechanical modeling
- finite element analysis
- vacuum system modeling and analysis

OUR RANGE OF PRODUCTS AND SERVICES

- turn-key vacuum and leak test systems
- vacuum chambers
- leak detection instruments
- calibrated leak standards and other leak detection accessories
- vacuum pumps, components and accessories
- vacuum pump and leak detector repair
- leak standard and vacuum gauge calibration services
- leak testing services
- leak detector rentals
