

RENTAL TERMS AND CONDITIONS

GENERAL

The undersigned is responsible for the operation, care, maintenance and safety of the equipment during the rental period. Any personnel operating the equipment must be trained. Please review the operating instructions included with the equipment before operating. Follow all start-up, operating, safety and shutdown procedures as outlined in the operating manual provided. LACO does not guarantee or certify any leak testing results generated by the rental equipment. The undersigned is responsible and liable for any leak testing certification and results.

PAYMENT

The one year TitanTest rental program requires payment upon shipment for the one year time period. Upon conclusion of the rental time period the rental unit will be returned freight prepaid to LACO for routine maintenance. The customer can notify LACO if an extension or another year is needed so arrangements can be made to provide another rental unit. No credits will be provided for early returns or for lack of usage. TitanTest accessories such as cart, remotes, sniffer and spray probes are not included in rental program and would be purchased as needed and owned by customer.

INSURANCE, DAMAGE, LOSS OR THEFT

The undersigned is responsible for damage, loss or theft of the equipment during the rental period. Identification of any possible damage is subject to inspection by LACO. The undersigned is responsible for payment of reasonable costs to repair or replace the equipment due to loss, theft or damage. It is highly recommended to verify business insurance coverage of rental equipment in possession. Shipping insurance is mandatory on return shipping for the value noted. LACO Technologies reserves the right to charge to cover the damage, loss or theft of the rental equipment. Customer is responsible to notify LACO of any potential shipping damage so a freight claim can be filed.

SERVICE AND REPAIRS

TitanTest 1 Year Rental Units will be either new units or newly refurbished units and will be covered under the manufacturer's standard warranty. The undersigned is however still responsible for routine maintenance on the leak detector including oil changes in the rotary vane vacuum pump, and replacing oil mist filter and inlet filters as needed. Depending upon the application, the oil may need to be replaced every 2,000 hours or less. Warranty will not cover any abuse or damage to the unit from misuse or process issues that would contribute to a premature failure. In the event additional service or repairs are needed contact technical support at 800.465.1004 to determine if the needed repair can be performed on site under the direction of LACO personnel. In the event a rental unit must be returned for repairs, LACO will either ship out a replacement unit or repair the original rental unit and return it prepaid ground freight with a time credit for days a unit was not available. Customers can choose to pay expedited replacement shipping charges if downtime must be minimized.

EXCESSIVE WEAR AND TEAR OR EQUIPMENT ABUSE

When operated properly the equipment should experience minimal wear and tear during the rental period. If it is determined that upon receipt and inspection of the returned equipment there has been excessive wear and tear or abuse the customer shall be charged for repair. This includes but is not limited to contamination of the equipment by chemicals, water, or excess particles, or running the equipment without the proper vacuum pump oil or voltage. One year rentals are valid up to a total of 2,000 hours, this corresponds to a normal shift of 8 hours per day, 5 days a week. Any additional time of usage of the unit would be charged \$150/100 hours.

TRANSPORTATION, STORAGE, AND SHIPMENT

The equipment shall be packaged to prevent damage due to shock, excess vibration, and weather during storage, transporting, or shipment. All initial and return shipping charges are to be paid by the customer. All items to ship insured per the indicated value. Warranty time credits and replacement units will be provided at no charge in the event of a rental failure. LACO to pay for any replacement unit outbound ground freight charges. However, customer will pay for shipping charges to return unit to LACO.

EQUIPMENT NOTES

The leak detector shall be installed on a system and operated such that it will not be subject to sudden air in-rushes or excessive water vapor while in test. The leak detector can be moved while in operation. However, avoid excessive movement or shock while the system is in operation. Leak testing rental equipment is not designed, rated or allowed for use in leak testing applications involving corrosive materials, water, high concentrations of oxygen, hydrogen or radioactive materials. Any abuse may result in equipment damage or equipment explosions. Do not use the leak detector to sniff an item contaminated with liquids or particles on its surface. Insure the item is clean prior to sniffing.

I, the undersigned, have read and understand the above terms and conditions. I understand and feel confident operating the equipment and am responsible for training and use of the equipment by other company personnel.
